SUMMARY

Computer Science student pursuing an Integrated BCA-MCA degree, with experience in software development, data analysis, machine learning, and research. Skilled in Python, Java, SQL, full-stack development, and data visualization. Co-inventor of a published Indian patent application and author of an IEEE CONECCT 2025 research publication on nutritional analysis. Experienced in developing data-driven applications, analytical dashboards, and computer vision workflows. Strong problem-solving, adaptability, and collaboration skills.

EDUCATION

Integrated BCA-MCA, Computer Science 2022–2027
Amrita Vishwa Vidyapeetham, Mysuru CGPA: 6.89/10

Pre-University Course (PCMC) 2022
Sri Viveka Vidyalaya, Mysuru 62.16%

SSLC 2020
Daisy Convent, Mysuru 79.68%

EXPERIENCE

Web Development Intern – Prodigy InfoTech 2024

- Developed interactive web applications using HTML, CSS, and JavaScript, implementing responsive interfaces and dynamic browser-based functionality.

Python Programming Intern – Code Alpha 2024

- Applied Python programming, logical reasoning, and debugging skills to programming tasks during the internship.

PROJECTS

Cyclone Image Classification – VAJRA-X *Python, Deep Learning*

- Developed an image-classification pipeline using HURSAT cyclone imagery and meteorological metadata to analyze cyclone development stages.
- Evaluated classification approaches on held-out data and examined model performance for further improvement.

Event Management System *MEAN Stack*

- Built a full-stack event management application supporting event registration, authentication, and CRUD operations.
- Integrated REST APIs and database functionality using MongoDB, Express.js, Angular, and Node.js.

Stock Market Dashboard *Python, Tkinter*

- Developed an interactive dashboard for exploring 10,000+ historical stock records through trend charts and visualizations.

Financial Management Application *Python, Tkinter*

Developed a desktop application with a graphical interface for organizing financial information.

Student Management System *Java*

Developed a student information management application using object-oriented programming principles.

RESEARCH, PUBLICATIONS & PATENTS

A System and Method for Nutritional Analysis and Harmfulness Assessment of Packaged Food Products
Indian patent application published – 3 July 2026
Co-inventor with Amruthaluri Yuvadeep, Laveen B M, and S Hemanth Bharadwaj. The invention describes an AI-assisted system for extracting packaged-food nutrition information, assessing harmfulness, and generating nutritional scores and health insights.

Developing the Harmfulness Score (H-Score): A Novel Framework for Evaluating Packaged Food Content
Published in IEEE CONECCT 2025. Developed an OCR-based nutritional analysis framework using EasyOCR and PyTesseract with a custom Harmfulness Score. Evaluated text extraction using WER, CER, and text-similarity methods.
DOI: 10.1109/CONECCT65861.2025.11306359

TECHNICAL SKILLS

Programming: Python, Java, C, SQL
Web Development: HTML, CSS, JavaScript, Angular, Node.js, Express.js
Data Science and ML: Pandas, NumPy, scikit-learn, XGBoost, classification, clustering, feature engineering, model evaluation
AI and Computer Vision: PyTorch, deep learning, OCR
Databases: MySQL, MongoDB
Tools: Git, GitHub, VS Code, Tkinter, Matplotlib, Seaborn, Tableau, AWS (EC2, S3, IAM)

CERTIFICATIONS & TRAINING

Python Programming Internship – Code Alpha (2024); Prompt Engineering for Generative AI – LinkedIn Learning (2024); Introduction to Conversational AI – LinkedIn Learning (2024); Ethical Hacking: Cryptography – LinkedIn Learning (2024); Software Project Management Training – Infosys Springboard.

ACHIEVEMENTS & CO-CURRICULAR ACTIVITIES

- Co-inventor of the published Indian patent application titled "A System and Method for Nutritional Analysis and Harmfulness Assessment of Packaged Food Products" (published 3 July 2026).
- Participated in two internal college-level Smart India Hackathon events.
- Volunteered in undergraduate (UG) and postgraduate (PG) orientation programmes, supporting student onboarding.
- Volunteered for ICPC event coordination and college technical and cultural activities.
- Donated food to elderly people as part of community service.
